

Bare Hands Bare Feet

The Bright Light Social Hour

Let's build a city
Bare hands bare feet Pick a place on a hill
Choose a spot on a beach
It's all within reach
Let's start it The tallest trees out front
A chicken coop in the back
Nobody's needs in lack
Let's start it I'll wind power my hips
We'll solar power our souls
Now we're on a roll
Let's start it A feast every night
A festival every week
If this is what you seek
Come on! MuÃ©vete gÃ¼erita
Ponte a bailar
Ponte a trabajar
Let's start it Mueve el culito
QuÃ¡tate el vestido
Todos somos amigos
Let's start it Cerveza frÃ¡-a in one hand
Hammer in the other
Get started with your brother
Let's start it Hey Curtis
Hey what?
Hey A.J.
Hey what?
Hey Jo
Hey what? Let's build a city
Bare hands bare feet
