

Kiss the Rainbow

Uriah Heep

Sometimes I feel like I could fly
Away across the ocean
Good times make me come alive
Holding no bottled up emotion That try to rule your life
And try to freak your mind
That system doesn't work
So leave it all behind See the colour, kiss the rainbow
My heart is strong, my time is free
Light up your world and you must let go
You will see there is no mystery
Daybreak, I look across the sky
And I taste the morning dew
Seeing your simple smiling eyes
Look now, a treasure chest awaits you If you let it in your life
And let it take your mind
This system really works
So leave the rest behind See the colour, kiss the rainbow
My heart is strong my time is free
Light up your world and you must let go
You will see there is no mystery Sometimes I feel like I could fly
Daybreak, I look across the sky, yeah See the colour, kiss the rainbow
My heart is strong my time is free
Light up your world and you must let go
You will see there is no mystery
See the colour, kiss the rainbow
Light up your world and you must let go
See the colour, kiss the rainbow
See the colour, kiss the rainbow
