

Solemn Promise

Full Blown Chaos

Think you are alone
you have never been more wrong
 this affliction
 kills a piece of us all
 drowning inside out
 swallow fatal frame
 don't hold your breath
i swear, you will breathe again
 this is a promise
 all i have in my heart
 strength for both of us
 pull you from the shadows
this blight wont take your life
scour the rust from your veins
 i feel your pain
 shedding mortal remains
 put your mind at ease
 you aren't on your own
 with you all the way
 fight this together
 this is a promise
 to a fallen friend
 if you are lost
i swear, we will meet again
 think you are alone
you've never been more wrong
 this affliction
 kills a piece of us all
 drowning inside out
 swallow fatal frame
 don't hold your breath
i swear, you will breathe again
 this is a promise
 this is a promise
 all I have in my heart
 strength for both of us
 pull you from the shadows.
