Rock Classics

The Knife

I'm coming over, but I won't be long
I'm coming over
I'm making a new songI pick a car and it's a fifteen minute drive
Rock Classics on the radio
To clear my mindSometimes on the weekends
We meet up at our favorite cafe
I'll order a chai tea
And you will have the usual au laitAnd when the place gets crowded
Then they freak out
And they play the music louder
