

# rocketship

## Foxfire

Can we get away? Far away  
Let's leave this place  
Will you come with me?  
Are you down to turn your world around  
It's you and me tonight  
Leave it all behind  
Let's go for a ride  
Say goodnight to gravity  
Hold on to me  
The passing stars light the way  
The future's here today  
It's you and me tonight  
Leave it all behind  
Get in my rocketship  
We'll leave the light of day  
Staying on the turning away  
There's no tomorrow  
Just today  
Together we will follow, fly away  
Never mind tomorrow  
Just today  
Leave it all behind  
Let's go for a ride
