Better High (feat. True Violet)

Tmpo

Take me by the hair I'll show wonderland
Thru trees of golden, violet skies
With gouls in pretty faces
Alll the wrong places
Sour Diesel, Cherry Pie

(Chorus)
So shake it up now
We got the love now
We're gonna stay high
And never come down
We're gonna roll
We're gonna grind
Now pass it left
Don't pass it right

The Monsta Hash x4

Hit me like a wave
I'm rising from the grave
This lifted, gifted paradise
And minds are slowly melting
Eyes are glasing over
Leave your body for the night.

(Chorus)
