Hard Times Blues

[Eric Clapton](#)

Now it's hard time, baby, hard times everywhere I go
Hard times, baby, hard times everywhere I go
Now these people keep cryin' 'bout hard times, they comin' more and moreNow I don't even see what these poor people is going to do
Now I can't see what people, these poor people is going to do
Keep cryin' about these hard times and they coming more and moreNow I went to the factory this mornin' where I had worked ten years ago
And I went to the factory this mornin' where I had worked ten years ago
And the bossman told me that they ain't hirin' in here no moreHard times, boy, and it's hard times everywhere I go
Hard times, boy, hard times everywhere I go
These people keep crying 'bout hard times and there's no work in here no more
