

# I Been Through Dat

## Turk

Uh-huh, you understand, this for all the niggas  
That's out there drugging you understand  
I ain't hating on you niggas, I feel y'all pain man  
And it's like this here, just peep this song out nigga  
It's real, cause I done been through it  
And I done left it alone  
I understand now, I'm a grown man now  
I was out there dog, no more dope in the bangs now  
I done been through it, and I know what it's like  
When you can't get no sleep, on a all night flight  
Not worrying bout shit, not a god damn thang  
All you want is that hit, and to hear that ring  
I know it's hard dog, it ain't easy to quit  
When that monkey on your back, nigga need that shit  
You got to feed that bitch, cause he gon straight blues you  
Get that noise out you, especially if you a shooter  
I know you filthy, don't lie tell the truth  
The shit you hearing, sound like I'm talking bout you  
But I'm just keeping it real, telling it like it is  
This shit ain't just started, been going on for years  
And I'm sick of, shit killing us slow  
I'm a grown man, and I don't want it no mo'  
See what you niggas doing, I done been through that  
From weed to coke, to that shit they call smack  
And I ain't gon lie, that shit done broke my back  
I done left it alone, and I ain't going back  
They say time is hard, but time is what you make it  
When you're wasting time, I call that baking  
I done did a lot of wasting, in my life  
A lot of drug chasing, all day and night  
Same clothes bout a week, could you believe that there  
No bath, brushing teeth, or braid my hair  
Just running like a chicken, with his head cut off  
When I'm banging never missing, you can ask my dog  
I ain't give a motherfuck about whoever, whatever  
Turk was gonna get it, in any kinda weather  
Out there head first, had to get me  
One and one everytime, never cope without the deed  
That's just how it be, when you living that life

Stealing through your peeps, when you living that life  
Or was it just me, who was living that life  
Caught up in these streets, just living this life  
See what you niggas doing, I done been through that  
From weed to coke, to that shit they call smack  
And I ain't gon lie, that shit done broke my back  
I done left it alone, and I ain't going back  
I said it plenty of times, but now I really mean it  
Fuck that shit, cause I no longer need it  
It ain't good for me, cause it's bringing me down  
And plus I'm never happy, cause I stay with a frown  
Man I love my life, fuck throwing it away  
Fucking with it leave it alone, please believe what I say  
Cause if I could do it, you could do it too my nigga  
No such things, as you can't do nigga  
It's on you my nigga, nobody else dog  
You know one thang, your boy been on your cell dog  
Fuck help dog, cold turkey that bitch  
And I bet you that you don't want go through it again  
I'm through with it man, I done left it alone  
And fuck turning back, cause I done left it alone  
See what you niggas doing, I done been through that  
From weed to coke, to that shit they call smack  
And I ain't gon lie, that shit done broke my back  
I done left it alone, and I ain't going back  
Yeah, and it's like that ya heard me  
I'm a living testimony to that monkey  
That nasty untamed gorilla, ya understand  
I feel you niggas hurting, I know how it is you understand  
Waking up 8 00 in the morning, yawning  
Body aching and you broke, don't know what to do  
You understand, but you gotta do something  
Cause that gorilla gon pimp you, you understand  
He gon make you go get him, cause he gotta eat you understand  
Either rob, kill, steal it don't matter you understand  
You gotta get it, the best way you could you understand  
If you out there drugging or thugging, you understand  
That's on you man, I ain't hating on you, you understand  
Yeah and it's like that man, let that man do what he want do  
If he wanna be out there on the corner shooting up  
You understand, snorting up, tooting up  
That's all on him you understand, don't knock a nigga  
For what he do you understand, he gon come in  
Just like I came in, you can come in too nigga  
You understand and it's like that there, I respect you yeah
