

Settle

All The Luck In The World

You kept, you kept me close
As winter, as winter closed in
Closed in...And I wrote, I wrote
Your name in the settled snow
Settled snow...Oh (etc.)
And it's love that lets you goSo keep close, and keep close
'Cause winter, 'cause winters closed us in
Closed us in...And I wrote, I wrote
Your name in the settled breath
On the window painOh (etc.)
And it's love that lets you goIt's love that lets you go
And it's love that lets you goAnd i seen Stowaway
We're still in old films
I've been following all your trails
It's just a random pawprintIt's just a random fucking pawprint (x4)
