

This Time

Suede

Oh, day after day, every morning
The city sighs and cars collide
Oh, we take the train
Through the winter hinterlands and garage bands
An' we wash it away, we wash it away this grey
Wash it away
Oh, say this time is yours and mine
Oh, hear the city sounds, see the lonely crowd
This scene is you and me
Oh in the lazy sun, we're the only ones
Oh, day after day, every morning
The roundabouts will take us out
Past every train in every station
Traffic signs and circle lines
Oh, wash it away, wash it away this grey
Wash it away
Oh, say this time is yours and mine
Oh, hear the city sounds, see the lonely crowd
This scene is you and me
Oh, in the lazy sun, we're the only ones
