

# You're The Man (that Brings The Woman Out Of Me)

Jessica Andrews

Sittin' here all by myself  
With my heart up on the shelf  
This house don't feel like home to me  
I watch the clock up on the wall  
The time stands still that's all  
When you're out of reach I guess you could see  
But since you went away  
I've been feeling this way  
What I really wanna say  
I wanna see you, I wanna be with you  
I wanna feel you and put my arms around you  
When I hold you, won't let go of you  
Baby if I could kiss you, I'd make love to you  
'Cause I need you like I've never needed anybody  
Oh baby can't you see?  
You're the man that brings the woman out of me  
I took a walk out in the rain  
Loney nights all feel the same  
With each goodbye I'm closer to you  
And though the miles pull us apart  
We both knew it from the start  
Together we can make it through  
Every minute that you're gone  
Is a minute too long  
Right here's where you belong  
I wanna see you, I wanna be with you  
I wanna feel you and put my arms around you  
And when I hold you won't let go of you  
Baby if I could kiss you, I'd make love to you  
'Cause I need you like I've never needed anybody  
Oh baby can't you see?  
You're the man that brings the woman out of me  
When we are together, it's like nothing that I've ever  
Felt before when you lay your hands on me  
It's lightning and it's thunder, this sweet spell that I'm under  
Baby, you're all that I need  
I wanna see you, I wanna be with you  
I wanna feel you and put my arms around you  
And when I hold you won't let go of you

Baby if I could kiss you, I'd make love to you  
'Cause I need you like I've never needed anybody  
Oh baby can't you see?  
You're the man that brings the woman out of me
