

# Here Comes The Night

[DJ Snake](#)

There's no light, no light in the sky  
And it gets so cold when she leaves my side  
Maybe she's the light, the light in my eyes  
'Cause everything looks old and tired when she leaves my side I know, I know, I know, I know you got to leave  
So I'll bite my tongue until that fuck completes  
Yeah, I know, I know, I know, I can be alright  
But see, you set my sun, so here comes the night  
Here comes the night, here comes the night  
Yeah, I know, I know, I know, I can be alright  
Here comes the night, here comes the  
Here comes the night Here comes the night  
Here comes the night There's no light, no light in the sky  
And it gets so cold when she leaves my side  
Maybe she's the light, the light in my eyes  
'Cause everything looks old and tired when she leaves my side I know, I know, I know, I know you got to leave  
So I'll bite my tongue until that fuck completes  
Yeah, I know, I know, I know, I can be alright  
But see, you set my sun, so here comes the night  
Here comes the night, here comes the night (here comes the night)  
Yeah, I know, I know, I know, I can be alright  
Here comes the night, here comes the  
Here comes the night Here comes the night  
Here comes the night I know, I know, I know, I know you got to leave
