

Let Love Lead The Way

Brian McComas

Baby those brown eyes
Well they snuck right up on me
Took me by surprise
Didn't know how deep they'd be
Been a long time comin'
Since somebody made me look
And stop all this runnin'
I guess you had what it took
And it's feelin' good tonight
So I'm gonna hold on tight
We can take it slow
Baby come what may
We'll just let love lead the way
I know you're just like me
You've always been in control
You'll give your time but
You won't ever bare your soul
But baby don't worry
If you need to back away
You can be sure we
Won't make any rules to how we play
But it's feelin' good tonight
So I'm gonna let it ride
We can take it slow
Baby come what may
We'll just let love lead the way
Hey I know it's overused
but we ain't got a thing to lose
We can dance all night while the music plays
We'll just let love lead the way
Yeah it's feelin' good tonight
Don't you wanna hold on tight
We can take it slow
Baby come what may
We'll just let love lead the way
And I know it's overused
But we ain't got a thing to lose
We can dance all night while the music plays
And we'll let love lead the way
Let it lead the way
