

French Kissing

Sarah Connor

Come on, you say, you say you love me
I make you believe that it's love you receive
Like a thief I just take what I need
(And when we're going tonight)
Just an ordinary evening
I hear voices from the ceiling
And I really was believing
It was my mind playing tricks on me
Went upstairs just for receiving
Something told me you were leaving
So I looked out of my window
Just to see you there coming straight back to me
Do it, baby, do it on the beach
Do it, baby, do it down on the street
Do it, baby, do it, you and me
We're gonna do what they call the French kissing
Give it, baby, give it in the car
Take it, baby, take it wherever you are
Give it, baby, give it, go too far
We're gonna do what they call the French kissing
Oh, c'mon
All the people try to reach us
All the preachers try to teach us
They will never find the features
That make our love live eternally
(That's right)
You and me we live forever
Breakin' rules but stay together
So I miss your kiss and tell you this
Do it, baby, do it on the beach
Do it, baby, do it down on the street
Do it, baby, do it, you and me
We're gonna do what they call the French kissing
Give it, baby, give it in the car
Take it, baby, take it wherever you are
Give it, baby, give it, go too far
We're gonna do what they call the French kissing
Romeo, lover, got up and kissed her

His Juliet girlfriend started to whisper
"According to Ceasar and to Cleopatra
I say the top of the pop is French kissing"
(That's right)

Live Eve and Adam, seduction led 'em
And when they went to get down
They found their way to heaven
Do you want me to stop?

(No)

We're gonna do the French kissing
(Yeah, yeah, yeah, yeah, yeah)
Do it, baby, do it on the beach
Do it, baby, do it down on the street
(Let's do the French kissing)
Do it, baby, do it, you and me
We're gonna do what they call the French kissing
(Kissing)

Give it, baby, give it in the car
(In the car)

Take it, baby, take it wherever you are
(Wherever you are)

Give it, baby, give it, go too far
We're gonna do what they call the French kissing
(Kissing)

You just wanna feel
(Do it)

Do it, baby, do it, baby, do it, do it, do it, baby, do it
Do it, baby, do it down on the street
(Down on the street)

Do it, baby, do it, you and me
We're gonna do what they call the French kissing
(Kissing)

Give it, baby, give it in the car
(In the car)

Take it, baby, take it wherever you are
(Wherever you are)

Give it, baby, give it, go too far
We're gonna do what they call the French kissing
(Kissing)

We're gonna do the French kissing
