Wildman (feat. Lynx)

Souleye

VerseWe light the candle at both ends
Running on low energy But I stand tall
My heart beats Continues to pump
Blood like there's no choice
For me but to Live
You see freedoms like a fallen Angel
That got her wings back
Now what's the day with a Soul Clap
I could camouflage my self and surly hide away
As if my bones won't decay
Instead we keep it Copasetic
Self medicated to cope
Let the wild man in me run
We can rewind it like a rerun
I can't imagine life with out a son
You see sometimes when the sun
Comes OUT I want to climb up
Find joy in the moment
Not just the climax
Taught to keep running
Now leaning how to relax
Safe and secure with my self
And those around me
That's my living profHook (Lynx)
Baby I'm running hard Running Through
This life is a wilderness Just like you
After the winter's gone Comes the Bloom
Baby I've seen the sun pulling throughVerse 2
Knees don't fail me now
Legs don't wear out I'm counting on you
To hold me up So I won't fall down
Long strides I see the end
It's in sight My diaphragms expanding
Like a rubber band
When the lights go out
And darkness fills the room
And my minds racing
Things seem out of place
My goals are gone

And the future visions a blur
Decisions are hard to make
And mistakes never occur
Turn down the road
While I'm running
Jumping over hurdles
Seeking visions in the deepest
Darkest places I know
Not afraid of being lost
Where I go So if it wasn't for that
And all the things that we do
In hopes to be truthful
And fit in I'm running away from it
Don't want it need it or even get it
I hope you know that
