

The Girl Who Was Death

Star ScreaM

Im laid to rest

The girl who was death, she took my breathNow that shes left,
the girl who was death an empty chestBut it aint a waste of time if Ive got you
It aint a waste of time now youre a satellite angelYou forever in my head
You forever till Im dead

The girl who was deathAcross the world a sleeping angel I once beheld
Those words you said, the girl who was death, in the sky she lays her headBut it aint a waste of time if Ive got
you

It aint a waste of time now Im a satellite angelYou forever in my head
You forever till Im dead

The girl who was deathOur hearts are dreaming with the stars
