

# Take it back (Neeco Delaf edit)

**Norah Jones**

Won't you take me away from here  
So I'll never find my way home  
Well there's one missing part of me  
And I'm afraid it's fine on its own  
And this time it's finally grown  
For me to see  
Now I see Words spoken silently  
I could never understand  
How breath delivers such poison  
To someone too weak to stand  
And dust can turn into mud  
Out on the sea  
In the sea Take it back, take it back  
Take it back Take it back, take it back  
Take it back Take it back, take it back  
Take it back Take it back, take it back  
Take it back
