

Where Do You Stand?

[Willie Nelson](#)

I'm somewhere behind you
You've come with your suitcase in hand
Hey what you plan where do you stand
The world's still divided and you're still under-sided the side if you can
Hey what you plan where do you stand
Where do you stand where do you stand
Hey what you plan where do you stand It's time for commitments
It's time for a showing up hands
Hey what you plan where do you stand
Surely there's someone with courage
To say where he stands
Hey what you plan where do you stand
Where do you stand
Where do you stand
