

Cut It Out

Indigo Girls

Sittin' in Darwin's theory
You're down in the forty-eight
I'm practicin' politics
You're practicin' guitar and stayin' out late
How'd we get so turned around?
Why did we make it so hard?
Why can't we cut it out tender?
Give us something good to remember Hey my, my, my rock star
Saw your feet leave the ground
You said all I wanted to be is loud
I was usherin' your friends in
I was, I was
I was tryin' to clear the aisles
How'd you get so turned around?
Why did you make it so hard?
Why can't you cut it out I'm tender?
Give me something good to remember I said
Cut it out
Cut it all out So it's Alaska in the summertime
In the wintertime I'm free
The days are short cold and wasted
Nowhere is warm enough for me
Baby you tell me what happened
Why did I make it so hard?
Can't I cut it out you're tender?
Give you something good to remember Baby you tell me what happened
(Why did we make it so hard?)
How did I make it so hard
(Can you tell me what happened?)
I wonder
Oh cut it out I'm tender
(Why did we make it so hard?)
Give me something
Give me something good to remember
(Why did we make it so hard?)
(Why did we make it so hard?)
(Can you tell me what happened?)
(Why did we make it so hard?)
(Can you tell me what happened?)

(Why did you make it so hard?)
(Can you tell me what happened?)
(Why did we make it so hard?)
(Can you tell me what happened?)I said
Cut it out
Cut it all out
Cut it out
Cut it all outHey my, my, my rock star
(Cut it out)
How did we get so turned around?
(Cut is all out)
(Hey my, my, my rock star)
Cut it all out now
Cut it all out now
(Hey my, my, my rock star)
(How did we get so turned around?)
Cut it all out now
Cut it all out now
(Hey my, my, my rock star)
Cut it all out now
Cut it all out now
(Hey my, my, my rock star)
(How did we get so turned around?)
Cut it all out now
Cut it all out now
(Hey my, my, my)
Cut it all out
