

# Heaven Can Wait

## We The Kings

Here's a song for the nights I think too much  
And here's a song when I imagine us together

Here's a song for when we talk  
Too much and I forget my words  
Heaven can wait up high in the sky  
It's you and I  
Heaven can wait deep down in your eyes  
I'm yours tonight  
Lay your heart next to mine  
I feel so alive

Tell me you want me to stay, forever  
'Cause heaven can wait  
Here's a song for the one who stole my heart  
And ran so far that cupid couldn't catch her  
Here's a song for the kid who aims so high  
He shot her down  
Heaven can wait up high in the sky  
It's you and I  
Heaven can wait deep down in your eyes

I'm yours tonight  
Lay your heart next to mine  
I feel so alive  
Tell me you want me to stay forever  
'Cause heaven can wait  
Here's a song for the nights  
I drink too much and spill my words  
Heaven can wait up high in the sky  
It's you and I  
Heaven can wait deep down in your eyes  
I'm yours tonight  
Lay your heart next to mine  
I feel so alive  
Tell me you want me to stay forever  
'Cause heaven can wait  
'Cause heaven can wait  
'Cause heaven can wait
