## The Word Alive

If you're not my blood, you are my bones  
The only one I've ever known You showed me how to be a man  
You don't know what you mean to me  
So many secrets run through me Don't fuck with family  
Don't fuck with family I've tried to be a better man  
For you will see that I've grown I know we've both made mistakes  
But you could never fail me  
In my heart you're the one who's molded me  
To be a man who could make you proud Do you have regrets, do you ever look back  
Do you have regrets, don't look back The one I turn to  
Nobody sees me as you do  
You're always there You taught me all I know  
(You better me I know)  
You taught me all I know  
(You better me I know) I'm sorry for the times I made you sad  
I just want you to know that I know we've both made mistakes  
But you could never fail me  
In my heart you're the one who's molded me  
To be a man who could make you proud Do you have regrets, do you ever look back  
Do you have regrets, don't look back  
Don't hold back, don't hold back Many nights I laid awake trying to think of a way to say  
But the words just don't seem to escape  
They get trapped at the start but the feelings won't fade So here's a song to say I love you  
This is the one I hope will let you know  
I don't need blood but I need bones  
You are my home I know we've both made mistakes  
But you could never fail me  
In my heart you're the one who's molded me  
To be a man who could make you proud Do you have regrets, do you ever look back  
Do you have regrets, don't look back  
I don't need blood, I need bones
