

Flashover

Klaxons

Myriads of silver discs
Signals have been noticed
 Out on the drift
Here comes the flashover
 From our new neighbor
Here comes the flashover
 Behold new colors
Messages, fresh images
 The over mind
Has noticed another shift
 Never seen before
Others bring new dawns
Colored grays are on display
 The waiting is no more
 Never seen before
Others bring new dawns
Imagination's opening
 Inviting us on board
Here comes the flashover
 Myriads of silver discs
 The over mind
Has signaled another lift
Dimensions of time have come undone
 Now we have become so unalone
Migration, space, extensions, differences
Information increases becoming
 What the mystery is
