

Circle Storm

DYS

The confrontations between black and white
Race makes no difference, we must unite
Fight against the social norm
Fuck with one, feel our circle's storm

Fight, against the social norm
Fight, and feel our circle's storm

Fight, against the social norm
Fight, and feel our circle's storm

Bootboys skinheads all the same
Stress our cause, that's out aim
Our noisy protest will go on
Until the day that we have won

Fight
