

I Want To Kill You Like They Do In the Movies

Marilyn Manson

I wanna fuck you like a foreign film
And there's no subtitles to get you through this
And I'm a country you don't ever, ever, ever, ever
Ever wanna visit again
Line up, roll camera, you pretend, I'll pretend
And cut, cut, cut, cut, cut, cut
Line up, roll camera, you pretend, I'll pretend
And cut, cut, cut, cut
I wanna kill you like they do in the movies
Don't worry there's another one just like you in line
I wanna kill you like they do in the movies
Don't worry there's another one just like you in line
Line up, roll camera, you pretend, I'll pretend
And cut, cut, cut
Line up, roll camera, you pretend, I'll pretend
And cut, cut, cut, cut
I'm a strip, strip, strip
And I flicker, flick, flick, flick
A flicker of celluloid
And there's holes, holes, holes in my everything
I'm a strip, strip, strip
And I flicker, flick, flick, flick
A flicker of celluloid
And there's holes, holes, holes in my everything
Just what I projected
Just want to project it
Come in, come in, come in, come in
Come in, come in, come in, come inside
So much, much, much more skin to break
I haven't even taken off my gloves
So much, much, much more skin to break
I haven't even taken off my gloves
I feel a little sorry baby, I feel a little sorry baby
I hear the afterlife is poorly scored
I feel a little sorry baby, I feel a little sorry baby
I hear the afterlife is poorly scored
You're lucky you don't have to wake up
Sick, sick, sick, sick
I'm sick of immortality, I'm sick of immortality
I'm sick of immortality
Only acting baby
Only acting baby
I was only acting baby
You're overacting baby
Don't confuse it with love
Don't confuse it with love
Don't confuse it with love
Don't confuse it with love
Every time I kill you I'm really just killing myself
Every time I kill you I'm really just killing myself
Every time I kill you I'm really just killing myself

Don't flatter yourself, don't flatter yourself This is business not pleasure baby
This is business not pleasure baby
Business of pleasure baby
This is business not pleasure baby
This is business, this is business I wanna kill you like they do in the movies
Don't worry there's another one just like you standing in line
I wanna kill you like they do in the movies
Don't worry there's another one just like you standing in line Line up, roll camera, you pretend and I'll pretend
And cut, cut, cut, cut
Line up, roll camera, you pretend and I'll pretend
And cut, cut, cut, cut
