Complexity

[Eagles of Death Metal](#)

You didn't want to scratch but then you got the itch
You only wanted Stoa but you got the witch
You know you're always paying for the shit that's free
It's not easy with this complexityI tried to make it easy never stop the flow
Just keep between simple let a little skin show
My socks and underwear I like to keep them clean
It's so easy without complexityYou say you want to finish but you never start
You want to get it finished but you just try hard
It don't take nothing fancy it's just ABC's
It so easy without complexityYou want the good stuff
You want the big hit
Found out it's simple come on and take it
But if you close your eyes then you won't see
That it's easier without complexityTo broke...I tried to make it easy never stop the flow
Just keep between simple let a little skin show
My socks and underwear I like to keep them clean
It's so easy without complexityYou want the good stuff
You want the big hit
Found out it's simple come on and take it
But if you close your eyes then you won't see
That it's easier without complexityYou want the good stuff
You want the big hit
Found out it's simple come on and take it
But if you close your eyes then you won't see
That it's easier without complexity
