

Let the World Keep on a Turnin' (with Buddy Alan)

Buck Owens

[with Buddy Alan]

Let the world keep on a turnin' let the fire keep on a burnin'

Let our love keep on a growin' to the sky

Let our ship of love keep sailin' keep the storm clouds far away and

Hand in hand we'll walk together side by side Please don't pay me attention to someone that they should mention

As they saw me in the arms of Mary Jane

Oh it's plain they're only jealous and their hearts are filled with malice

Their intention is to only bring us pain

Let the world keep on a turnin'...

[steel]

When they try to cause us trouble we'll politely pop their pubble

By ignoring any gossip they might start

So let the north wind keep a blowin' we'll be safe cause we'll be a knowin'

That our love is safely locked inside our hearts

Let the world keep on a turnin'...

Hand in hand we'll walk together side by side

Hand in hand we'll walk together side by side
