

My Own Country

Pennywise

fools run the government sick foreign policy their words sound valiant but their hands are green unending quest
for power taxes that make us slaves don't believe a word of it ignore the fucked up things they say i'm gonna
make it on my own dictator on a throne make my own philosophy u.s. of me a citizen who's really pissed united
anarchists give me death or liberty i am my own country united states confederate of me old whigs in parliament
play bedroom politics salacious stories make them look obscene spin on your nemesis fill up the news today
don't believe a word of it not all the fucked up things they say it's ail me no secret police
