

# Elegia (OST -More- by Mark Osborne)

## New Order

I was born in a small village  
I was still a child when we were raided by soldiers  
Foreign soldiers  
Torn from my elders I was made to speak their language  
With each new post, my master's changed  
Along with the words they made me speak  
With each change, I change too  
My thoughts, personality, how I saw right and wrong  
Words can kill
