

# Ride

## The Vines

That's the start the middle and the end  
Aren't you glad the universe pretend  
If I don't get this message honed  
Once again I'm gonna hate alone

Ride with me  
Ride with me  
Ride with me  
Ride with me  
Ride with me  
Ride with me

Bored aloud ignore the right to be  
Invite me down because we like to see  
The colours through your loaded mind  
Fuck the world and liberate our time

Ride with me  
Ride with me  
Ride with me  
Ride with me  
Ride with me  
Ride with me

I'm not waiting alone  
I'm not waiting alone

Ride with me  
Ride with me  
Ride with me  
Ride with me  
Ride with me
