

Time Wave Zero

Kate Pierson

Now, Time wave zero, zero now
Time wave zero, zero now
solar storms, the end of all days
ambush! asteroid heading our way
Nostradamus, what's to come?
auroraborealis are falling (south?)the end is near
the end is near
the ebb and flow
nowhere to go, but right here
and you and I will stand alone
with nothing to fear
as long as we're together
when the end is near
you and I will stand alone
with nothing to fear
as long as we're together
when the end is nearTime wave zero, zero, now
Time wave zero, zero, now
Time wave zero, zero, now
better times, like hope, betrayed
apocalypse fractures the milky way
Aquarius count the days
waiting for the golden agethe end is near
the end is near
the ebb and flow
nowehere to go
but right here
right here
and you and I will stand alone
with nothing to fear
as long as we're together
when the end is near
and you and I will stand alone
with nothing to fear
as long as we're together
when the end is nearTime wave zero, zero, now
time wave zero, zero, now
time wave zero, zero, now
(when the end is near)

now, time wave zero, zero, now
(when the end is near)time wave zero, zero, now
time wave zero, zero, now
(when the end is near)
time wave zero, zero, now
now
