As I Look Into My Life

R. Kelly

As I look into my life searching for that paradiseOh Lord will You help me, find me?
Take this crazy, crazy past of mine and put it all behind me
Look down on the ghetto man and change his mission
And put it in the hearts of many to stop confusionAs I look into my life searching for that paradise
(We need to mourn for love)My sistas, brothas let's put these hands together
(As I look into my life searching for that paradise)
We need to stop chokin' on the truth and start smokin' on a plan man
