

Sugar

Garbage

give me sugar
give me something sweet
I've spent a lifetime feeling incomplete
if I sound bitter or if I've come too late please reconsider
I don't need much on my plate
just give me sugar
don't come close
please keep at a distance
look but don-t touch the glass til the curtain calls
wait
don't make me wait
just give me sugar
give me sugar
give me something deep
don't make a habit of crawling on my knees
but this is different
can'y you see I'm in control
This is the moment where all your dreams have flown
just give me sugar
don't come close
please keep at a distance
look but don-t touch the light goes on
sour as a lemon
please wait at the window
don-t touch the glass til the curtain calls

wait
don't make me wait
just give me sugar
give me sugar
give me something deep
don't make a habit of crawling on my knees
but this is different
can'y you see I'm in control
This is the moment where all your dreams have flown
just give me sugar
don't come close
please keep at a distance
look but don-t touch the light goes on

sour as a lemon
please wait at the window
don-t touch the glass til the curtain calls
wait
don't make me wait
just give me sugar
Sugar to hook her on
Some Sugar to hook her on
Oh won't someone love me
won't someone love me
won't someone love me ike you
like you
someone like you
