Red Light

Nadine Coyle

Red Light, Red light...
Re-ed Light, Red light...Stopped at the red light.
You're playing hendrix and lighting up
I caught your attention trying my best to seem amusedLiving the good life, with ever stop there's a different dream
Making my reputation, for making music, not magazines.Give me a second and I'll right it all down.
Give me an hour and I'll pretend I'm down.Chorus:
The starlight's flooding my airwaves
I've never felt this feeling before
My revs are pushing to 10 babe
These wild horses are taking control
The spot light's pointing at your face
We'll be the driver right till the end
My revs are pushing to 10 babe
These wild horses are taking controlRed Light, Red light...
Re-ed Light, Red light...Now it's a green light, my body's yearning to give you more
I feel like now I'm ready, but my subconscious is still unsure.Give me a second and I'll right it all down.
Give me an hour and I'll pretend I'm down
Give me a day and I will work it all out
Give me a week and then you won't hear a sound.Chorus:
The starlight's flooding my airwaves
I've never felt this feeling before
My revs are pushing to 10 babe
These wild horses are taking control
The spot light's pointing at your face
We'll be the driver right till the end
My revs are pushing to 10 babe
These wild horses are taking controlWhoa oh oah whoa oh o oh
Whoa oh oah whoa oh
Whoa oh oah whoa oh o oh
Whoa oh oah whoa ohGive me a second and I'll right it all down.
Give me an hour and I'll pretend I'm down
Give me a day and I will work it all out
A week and then you won't hear a sound.Chorus:
The starlight's flooding my airwaves
I've never felt this feeling before
My revs are pushing to 10 babe
These wild horses are taking control
The spot light's pointing at your face

We'll be the driver right till the end
My revs are pushing to 10 babe
These wild horses are taking controlRed Light, Red light...
Re-ed Light, Red light...
