

Lady Gray (Easy to Love)

Christon Gray

Your eyes are windows
I see everything I remember
God gave me memories so,
I'd have roses in December
Still bleeding from my own thorns
Pedals falling in the rain
Still looking for the rainbow

I can't wait till the sun shines again I feel like I'm looking for the love that we see on TV
I still feel like I'm trying to write a song I already made
Sometimes I know I make it hard to understand me
But I won't give up, it's too hard for me to walk away (Chorus)
I'm not easy to love (I already know)
I'm not easy to love
Baby, you're so easy to love
And I'm working hard to love myself
Before I love anyone else (Bridge)

Still feel like i'm looking for the love, that we see on TV
Still feel like I'm trying to write a song I already made
Sometimes I know I make hard to understand me
But I won't give up, it's too hard for me to walk away Cause you're so easy to love
You're so easy to love (you're not perfect but)
You're easy to love You can hear all the whispers
Like a song in the wind
I don't know where its coming from
I only where it's been
Trying to read through the scriptures
Trying to find me a word
Trying to think of a melody

It's like my mind's been disturbed and lately Still feel like i'm looking for the love, that we see on TV
Still feel like I'm trying to write a song I already made
Sometimes I know I make hard to understand me
But I aint giving up, I aint walking away (repeat bridge)
