Embryonic

Amphibious Zoo Music

In a mood like this
Dont want to pull away from you
Dont want to hurt you
Shutting you out
Or pushing you away
In the mood like this
I want someplace that is just mine
And nobody elses
Just mineComplete indifference
TV life instead of talk
Were drifting apart
Lipreading
And so distant now
I miss what we had
I miss someplace that was just mine
And nobody elses
Just minePlace for me to hide
Inside of meFor you
I will be
For you
I will escape again
Wish to see in your eyes
That you want us backThat theres hope for us
