## Amphibious Zoo Music

In a mood like this  
Dont want to pull away from you  
Dont want to hurt you  
Shutting you out  
Or pushing you away  
In the mood like this  
I want someplace that is just mine  
And nobody elses  
Just mineComplete indifference  
TV life instead of talk  
Were drifting apart  
Lipreading  
And so distant now  
I miss what we had  
I miss someplace that was just mine  
And nobody elses  
Just minePlace for me to hide  
Inside of meFor you  
I will be  
For you  
I will escape again  
Wish to see in your eyes  
That you want us backThat theres hope for us
