Inside the Violence

Pale Forest

Once forever
in without
Flow the magma
from the sunSolitaire I am within
I'm forever only
but I want to fade away
Never could I be as lonely
...and everlastingBeautiful be all that I see, I smile to the rain
Beautiful black, mourning free
I hurt again
I shed my tears only for meI know I am really nothing
I know my true pain
The gleaming needle is
my only true gain
...forever laughing
