

While I'm Alone

Maze & Frankie Beverly

I guess the weekends over now and you'll have to make your way

 We had a ball of dynamite right from the first day

 Tell me that you'll call me just as soon as you get home

 To pacify my heart while I'm alone

I don't like being aloneThe things we did this time my love we've never done before

 You've made some chances in my head I don't feel the same no more

 Please be with me honey all the times when your not home

To comfort me my love while I'm aloneI don't like being aloneJust think the times you left before and burnin
 up inside

 Is something I can't see no more

 Not for my foolish pride

 Please be with me honey all the times when your not home

 To pacify my heart while I'm alone

 I don't like being alone

 No no I don't like it being alone

 I can't stand it Being alone
