

Baby Blue

Little Birdy

Am I too young for you, babe
Am I too stupid to see
When I get home to see you
I rush after your charms Its naughty, to be here And my love song for you, babe
Is it all that you propose
Then I'm lyin on top of you
Wait I can not see It's naughty to be here
It's naughty But I can't say that I love you anymore
I just want to make you happy
Just living for today
Baby Blue I'm yours
But I only wish it was my plan
Change the wild love song
To the one you hate Is it all that your waiting for
Patience and you'll see
That in too long you'll be alone
You let me go It's naughty to be here
It's naughty But I can't say that I love you anymore
I just want to make you happy
Just living for today
Baby Blue I'm yours
But I only wish it was my plan
Change the wild love song
To the one you hate But I can't say that I love you anymore
I just want to make you happy
Just living for today
Baby Blue I'm yours
But I only wish it was my plan
Change the wild love song
To the one you hate It's naughty to be here
It's naughty
