The Four Horsemen

Brian Tyler

And when the lamb opened the
first seal,
I saw the first Horse.
The Horseman held a bowNow when the lamb opened the
second seal,
I saw the second Horse
The Horseman held his swordThe leading horse is white
the second horse is red
the third one is a black,
the last one is a greenThe leading horse is white
the second horse is red
the third one is a black,
the last one is a green
And when the lamb opened the
third seal,
I saw the third Horse.
The Horseman had a balance
Now when the lamb opened the fourth seal,
I saw the fourth Horse.
The Horseman was the PestThe leading horse is white
the second horse is red
the third one is a black,
the last one is a greenThe leading horse is white
the second horse is red
the third one is a black,
the last one is a greenThe leading horse is white
the second horse is red
the third one is a black,
the last one is a green
