Satellite

By The Tree

Is this satellite?I am revolving around Your sun
Sending a message to everyone
Wanna be Your signal
Wanna be Your sound
Can You feel it now?(Be Your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love, be Your satelliteWrite Your name across the sky
Tell them the reasons why
Your love will never fail
Wanna be Your signal
Wanna be Your sound
Can You feel it now?(Be Your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love(Be your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love, be Your satelliteI am revolving around Your sun
Sending a message to everyone(Be Your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love, be Your satellite(Be Your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love, be Your satellite(Be Your satellite)
To this world I'm shining like a star
(Burning through the night)
Reflect Your love, reflect Your love be Your satellite
