White Knuckles

Boh Doran

Attracted to the spark before the flame
Is it any wonder that it all turns out the same?
Oooh
I've fallen for it all before you came

Just started I'm done
You're here, but I'm gone
There's no other way

Love for the high and low
Need me like a junkie needing dope
Hold me like you can't let go with white knuckles
White knuckles
Even when the rush is gone
Even when the stardust turns to dawn
Will you still be holding on with white knuckles
White knuckles

They say we fell in love too fast
It's such a fuzzy feeling, it's a shame it never lasts
Oooh
These desires never pass

Just started, you're done
I'm here but you're gone
There's no other way

Love for the high and low
Need me like a junkie needing dope
Hold me like you can't let go with white knuckles
White knuckles
Even when the rush is gone
Even when the stardust turns to dawn
Will you still be holding on with white knuckles
White knuckles

Even if the spark don't light
Can we make it all right?
Can we make it all right?

Love me for the high and low
Love me 'til this candle ends in smoke
Hold me like you can't let go with white knuckles
White knuckles
Even when the rush is gone
Even when the stardust turns to dawn
Will you still be holding on with white knuckles
White knuckles
