

# We Should Be Together Now

## Powderfinger

What are you looking for this time around?  
Might need something to bring you to ground  
Everything turning me inside and out  
What are you looking for this time around? It's coming in and over  
It's waiting at your shoulder  
It's coming in and over  
It's waiting at your shoulder  
It's coming in and over You can see  
We should be together now  
Wait for me  
I'm pulling it together now What are you looking for this time around?  
Just keep telling me what you have found  
All of this running me upside and down  
What are you looking for this time around? It's coming in and over  
It's waiting at your shoulder  
It's coming in and over  
It's waiting at your shoulder  
It's coming in and over You can see  
We should be together now  
Wait for me  
I'm pulling it together now  
We should be together now You can see  
We should be together now  
Wait for me  
I'm pulling it together now We should be together now  
We should be together now  
We should be together now
