Singularity

Candle Nine

Open arms wide as I reach for the blue skies
To embrace we'll love her now
We were made to last for a lifetime
Searching the world to find our souls
We're not gonna let you fall
Behind behind behind
We're gonna live, we'll never die (fade)We'll never
Die
Die
Die
DieWe're gonna live, we'll never
Die
Die
Die
DieOpen arms wide as I reach for the blue skies
To embrace we'll love her now
We were made to last for a lifetime
Searching the world to find our souls
Deep in the darkest hour of night
We're not gonna let you fall behind
We're not afraid of losing time
We're gonna live, well never die (fade)We'll never
Die
Die
Die
DieWe're gonna live, we'll never
Die
Die
Die
Die
