Stonewashed

Lorene Drive

So im down again
open wide
we'll put it off this timeAnother day goes by
never seem to find
just when i thought i had it under control
so ill take another breath
i just hope there's something left
something more to wish for
and the days fly bychorusbut im still there
waiting for you
alone in my room learning nothing new
consider me for your return
god i cant remember
if i could only (?? rental???wentfor??)and i recall the summer nights
we never used to fight
foreshadowing those senseless battles
well could we learn the answers too?
the preparation hereby????
if i dont learn them quickly i swear ill go crazyyychorus again
