Fall On Me

Boomkat

I don't feel so bad
for never calling you again
I wasn't feeling it so much
Not when we kissed or when we touched
OoohAnd I don't wanna be your fantasy
You should have know better but you did nothingWhat we meant, people change
Don't fall on me, dont fall on me oh yeah
Who's to blame
And if you fall on me, its gonna be on youI never saw any boys cry
But I see you sitting there rubbing on your little eyes
I feel so mean and I don't know why
Cause I told you not to dive in and you didn't listenAnd I don't know what you expect from me
Cause I keep trying to tell you nicelyWhat we meant, people change
Don't fall on me, dont fall on me
Oh yeah
Who's to blame
And if you fall on me, it's gonna be on youI thought I warned you of a disaster
You didn't run away much faster
I thought I told you not to dive in
You didn't listen to me, to meWhat we meant, people change
dont fall on me, dont fall on me
What we meant, whos to blame
Dont fall on me, dont fall on me
What we meant
and if you fall on me, its gonna be on you
