Rolling Blackouts

The Go! Team

over the range
the secret is what we became
now only the secret remainsdon't settle on me now
the cover is blown with a touch
we go when they're asking too muchgot a history and its catching up
crossed the nation like a rolling blackout
got the mystery but its not enough
ain't a prison but you'll never get outrealise
staying over is yr only prize
now i know
some forget...
but i don'tthe road before us
we move on and never let out
the things we had whispered aboutback to the mirror now
theres nobody left to defend
its here that my loyalty endsgot a history and its catching up
crossed the nation like a rolling blackout
got the mystery but its not enough
ain't a prison but you'll never get outrealise
staying over is yr only prize
now i know
some forgive...
but i don'tno delay
get out today
get out if only i could
letting go
i could say no...
but i won't
