Royal Hunt

Future's comin' from the past
Who's first and who's last
Fire's risin' off the ground
Fear's the king. Entire town
Lookin' up across the sky
Which one's turn to die
All are one and worlds apart
Undertakers workin' hard
You'll remember the loss of fate
December '48
Devil's mark is on your face
Black Death's all around the place
Rotten bodies is were it's at
Friends are gone and rats get fat
Cross on fire fights the night
Who will ever see the light
Crowd in front of the heaven's gate
December '48
