

# Afterglow

## All Time Low

Step outside in the midnight rain  
King n' queen of the streets again  
Got young blood running through our veins  
And it keeps us numb like Novocain Alright  
We can go all night  
'Cause we got a whole lot of fight in us  
And I see a long road  
That we gotta follow  
Before tomorrow catches up Oh, just take it easy  
Hold onto this feeling  
All our friends are leaving  
And we ain't got nowhere to go  
Caught up in the afterglow "Can't stay here but ya can't go home"  
Did you hear that line somewhere before?  
And you look just fine on your own  
But we look better in the afterglow Alright  
We can go all night  
'Cause we got a whole lot of fight in us  
And I see a long road  
That we gotta follow  
Before tomorrow catches up Oh, just take it easy  
Hold onto this feeling  
All our friends are leaving  
But we ain't got nowhere to go  
Caught up in the afterglow We ain't got nowhere to go  
Caught up in the afterglow  
Oh, just take it easy  
Hold onto this feeling  
No, we don't need a reason  
'Cause we ain't got nowhere to go  
Caught up in the afterglow When the light go down  
Come find me in the afterglow  
Waiting to be found  
I'll meet you in the afterglow When the light go down  
Come find me in the afterglow  
Waiting to be found  
I'll meet you in the afterglow
