The Hunger

Brody Dalle

(D. Dokken/ B. White)
What's wrong with you may be right for me
Don't need to feel your sympathy, no
In the dark I feel at home
I need the night to make my feelings known
All right, like a lone wolf, can't you see
Living false realities
Do you know just how I feel, can't explain it, but it's real
Lost in a world full of fear, it gives me passion
I'm just a lone wolf who's waiting
Waiting for life's attraction to give me
1st CHORUS:
The hunger...burning in my soul
With the hunger...everybody knows
It's the hunger...give me what I need
With the hunger...satisfaction guaranteed
Blackened sky on a full moon rise
Destiny, it calls to me
Some call it love, some call it more
I'll play that game if it gets me through the door

All right, like a lone wolf, can't you see
Living false realities
Do you know just how I feel, can't explain it, but it's real
Lost in a world full of fear, it gives me passion
I'm just a lone wolf who's waiting
Waiting for life's attraction to give me
2nd CHORUS:
The hunger...burning in my soul
With the hunger...everybody knows
It's the hunger...give me what I need
With the hunger...take a walk with me
BRIDGE
On the night I call your name
As we stop to play the game
Is it love, or fantasy
Living false realities
SOLO
1st CHORUS

The hunger (3x)
It's the hunger...
